Dreams 梦

What do you dream about? 你常梦见什么？

Some people in London said:

Woman 1: "I usually don't remember my dreams."

Man: "I'm in, you know, those the old exam halls, can't find the room, can't find my seat in the exam room, don't know which exam I'm going to, then realise I'm naked. I think it sort of stops at that point really, when I realise that all is lost."

Woman 2: "I always have dreams about tornados. They're usually a big storm and I just try and run away from them, which is weird because I've never been in one and I'm not really scared of them but I always dream about them."

Did you know...? 你知道吗...?

Fact

Children don't dream about themselves until the age of three or four.

Language tip

The past tense of dream can be dreamt or dreamed.

Cultural tip

British people often believe that eating cheese gives you bad dreams.
